¹ Illinois(a)(1) - Property insurance on the common elements and the units, including the limited common elements and except as otherwise determined by the board of managers, the bare walls, floors, and ceilings of the unit. Contiguous units; improvements and betterments. The insurance maintained under subdivision (a)(1) must include the units, the limited common elements except as otherwise determined by the board of managers, and the common elements. The insurance need not cover improvements and betterments to the units installed by unit owners, but if improvements and betterments are covered, any increased cost may be assessed by the association against the units affected. Common elements include fixtures located within the unfinished interior surfaces of the perimeter walls, floors, and ceilings of the individual units initially installed by the developer. Common elements exclude floor, wall, and ceiling coverings. "Improvements and betterments" means all decorating, fixtures, and furnishings installed or added to and located within the boundaries of the unit, including electrical fixtures, appliances, air conditioning and heating equipment, water heaters, or built-in cabinets installed by unit owners.

² Utah - Deductible - Owners of damaged Units share by applying its unit damage percentage for that Unit to the amount of the deductible; if owner does not pay share within 30 days after substantial completion, amount may be levied against Unit. Association must set aside an amount equal to the amount of the Association's deductible. Association obligated to give written notice of any change in the amount of the deductible; failure to give notice makes the Association liable for the amount of the increase.
